Division Description

The Division of Medical Assistance is responsible for administering plans to finance and deliver health services for people at risk due to low income and other factors, such as youth, old age, pregnancy, or disability, pursuant to state and federal Medicaid requirements. Additionally, the division licenses and certifies health facilities to meet state and federal requirements and to participate in Medicaid and Medicare.

MEDICAID ADMINISTRATION & MEDICAL MANAGEMENT: Includes expenditures for administration of a comprehensive program of medical coverage to eligible recipients in Idaho. Coverage is provided through traditional Medicaid (Title XIX), and CHIP (Title XXI). Administrative functions include managing provider payments, contracting with state agencies and universities for medical management, conducting drug utilization reviews and individual assessments, and licensing and inspecting health facilities such as nursing homes, hospitals, and residential and assisted living facilities. Prior to FY 2007, all Medicaid expenditures were reported under the Medical Assistance Services Program. The program has been renamed Medicaid Administration & Medical Management.

State Plan for DUAL ELIGIBLE INDIVIDUALS (Medicaid Coordinated Plan): Beneficiaries covered in this plan primarily consist of those who are age 65 and older. All individuals dually eligible for Medicaid and Medicare, regardless of age, may elect to receive coverage under this plan.

State Plan for INDIVIDUALS WITH DISABILITIES (Medicaid Enhanced Plan): Medicaid eligible group primarily made up of children and adults (non-elderly) with disabilities or other individuals with special health needs, such as foster children. Individuals included in this plan may elect to remain in this plan after they turn 65 years old.

State Plan for LOW-INCOME CHILDREN AND WORKING-AGE ADULTS (Medicaid Basic Plan): Medicaid eligible group primarily consisting of Pregnant Women and Children (PWC), Family Medicaid and Idaho's Children Health Insurance Program (CHIP). These populations are assumed to be in average health, with average levels of disease.

|---------------------------|------|---------|---|---|---------|
| Governor's Recommendation | 0.00 | 849,500 | 0 | 0 | 849,500 |

1. CMS Audit

The division requests an ongoing increase in General Funds of \$221,700 in personnel costs and \$7,000 in operating expenditures to offset a decrease in federal funds. An audit completed by the federal Centers for Medicaid and Medicare Services (CMS) found that the division was charging staff time at a federal match rate of 75% for work that only qualifies for the administrative federal match rate of 50%. The higher match rate is available when staff conducts business related to claims adjudication.

| Governor's Recommendation | 0.00 | 0 | 0 | 0 | 0 |

2. Idaho Health Data Exchange

The division requests \$350,000 in operating expenditures (one-time) to contribute state funds toward the first year of a two-year pilot project to develop the infrastructure for the Idaho Health Data Exchange. This project is a public-private partnership under the Health Quality Planning Commission (HQPC) that was established through legislation within the Department of Health and Welfare in 2006. The purpose of the project is to improve health care quality and outcomes by creating access to pharmacy history, claims data and eprescribing functions. The division has \$100,000 of General Funds in their base budget for the HQPC.

|---------------------------|------|---------|---|---|---------|
| Governor's Recommendation | 0.00 | 350,000 | 0 | 0 | 350,000 |

9. Department Personnel Costs Transfer

This request is to shift General Fund personnel funding from the following programs:

Physical Health: \$379,200

Labs: \$128,600

Self Reliance Operations: \$420,300

Child Welfare: \$982,700 TOTAL: \$1,910,800

The funding would be received by the following programs in personnel costs:

Childrens Mental Health: \$161,700 Community Mental Health: \$220,700

Community Developmental Disabilities: \$37,300

Indirect Support Services: \$1,145,500

Medicaid Administration & Medical Mgmt: \$276,400

State Hospital North: \$69,200

As of the end of the 1st quarter the department has projected the Child Welfare's transfer out will be reduced to \$907,400 and that Community Mental Health will only need \$145,400.

1. MMIS Reprocurement

The Medicaid Management Information System (MMIS) is the IT system that distributes benefit payments to the providers who serve Medicaid recipients. The state is required by CMS to have a certified system. The division requests \$3,261,500 from the General Fund and \$16,119,000 in federal matching funds to continue the design, development and implementation phase of the Medicaid Management Information System (MMIS) Reprocurement project in FY 2009. The design, development and implementation phase began in November 2007 and is expected to be completed within 24 months. Funding for this project began in FY 2007, with an appropriation of \$1,433,000 in state funds and \$7,279,000 in federal match. Due to a delay in selecting the vendor, \$7,444,400 of the FY 2007 appropriation was encumbered and included with an additional FY 2008 appropriation of \$440,400 in General Funds and \$7,548,400 in federal funds, for a total budget of \$15,433,200 in FY 2008.

3. Transfer PSR Unit to Medicaid

The division requests 15 FTP, \$907,600 in personnel costs and \$56,000 in operating expenditures to transfer staff from the Division of Behavioral Health to the Division of Medicaid. These positions are responsible for administering prior authorizations for Medicaid-funded psychosocial rehabilitation (PSR) services and conducting site visits of Medicaid PSR providers to ensure that providers are conforming to state regulations. The division states that transferring the PSR unit will improve organizational efficiency by allowing closer coordination with staff responsible for similar functions, such as Medicaid credentialing of PSR providers, and reducing the potential for conflict of interest, as the Division of Behavioral Health provides PSR services.

| Governor's Recommendation | 15.00 | 481,800 | 0 | 481,800 | 963,600 |

5. Actuarial Work (CMS Requirement)

The division requests \$100,000 (ongoing) to contract with Boise State University to complete the analysis, evaluation and certification of actuarial work required by CMS. CMS requires states to verify that they have accurately projected costs and utilization when negotiating managed care contracts for services provided to Medicaid recipients. This requirement applies when certain integrated benefits are paid by Medicaid to Medicare Advantage Plans on a per capita rather than on a fee-for-service basis.

Reappropriation

Reappropriation authority, also known as carryover, allows unspent funds from the prior fiscal year to be carried over and spent in the current fiscal year. Those monies are then removed as one-time expenditures before calculating the next year's base. Carryover requires specific legislative authorization and must be approved every year.

7. RALF Rate Increase

The division requests \$4,300,000 (ongoing) to increase Medicaid rates for Residential Assisted Living Facility (RALF) providers. The division states that the Uniform Assessment Instrument, which is used to determine payment to RALFs, has not been updated since 1999 and that low reimbursement rates have resulted in some RALF providers not accepting new Medicaid participants. According to the division, approximately 2,900 Medicaid participants meet the qualifications for a nursing home level of care but choose to live in the community under the Aged and Disabled Waiver. The cost of providing nursing home care is about \$2,700 more per month than providing RALF services through Medicaid.

3. Multi-State Purchasing Pool

In response to legislative direction (HCR 50, 2006 Legislative Session), the division joined a multi-state drug purchasing pool and has developed a plan to use the resulting increase in rebates to fund preventative health assistance accounts for Medicaid participants who are required to pay premiums. If these participants engage in certain preventative health activities, such as attending annual exams, they can receive a credit toward their overdue premium payments. The division requests \$2,000,000 in dedicated funds receipts authority (ongoing) to collect the projected increase in rebates and requests authority to direct \$1,400,000 of the rebates toward the preventative health assistance accounts.

Reduce GF Approp./School Services Match

The division requests a General Fund rescission of \$4,208,600 (one-time) to remove carryover funds and an ongoing reduction of \$3,644,100 in funds appropriated for provider payments. The reduction is related to lower than projected caseload growth in FY 2008.

Total General Fund rescission for all Medicaid benefits programs: \$17,379,500 (\$9,908,400 one-time/\$7,471,100 ongoing)

The division also requests removal of one-time dedicated fund spending authority of \$1,000,000 that was provided as state match for school-based services.

Non-Cognizable Funds and Transfers

Provides a noncognizable increase in federal funds of \$3,620,500. The increase reflects the division's revised projection of federal match rates, including caseload growth in programs with higher federal match rates.

Total noncognizable increase in federal funds for all Medicaid benefits programs: \$8,826,200

Transfers spending authority (ongoing) in the trustee/benefit payments expenditure category between the Medicaid benefit payments programs based on actual expenditures in FY 2007, to more accurately project FY 2008 expenditures and establish the FY 2009 base budget.

2. Implement HCBS Rate Methodology

HB 190 (2006 Legislative Session) directed the division to implement a fair and equitable methodology for reviewing and determining reimbursement rates for home and community-based services (mental health and developmental disability providers). In FY 2007, the division received an appropriation of \$300,000 to conduct a market analysis and develop a reimbursement methodology for these services. The division requests \$4,700,000 to implement the resulting changes in the rate methodology.

4. Title XIX Family Planning Expansion

The division requests \$8,323,600 to increase the eligibility limit for family planning services to 185% of the federal poverty level. The state receives a 90% federal match for these services under Title XIX (Medicaid). The division estimates that 27,000 individuals would become eligible for services with the increase in eligibility limits and that about half (13,500) would access the services. The funds would be passed through to the Public Health Districts, to be combined with the Title X funds currently used by the districts to provide these services. Unlike Medicaid, the Title X family planning program is not an entitlement program; funding is limited and services are provided on a sliding fee scale.
